

THE **Garden of Eden** without soil.

A **joyful splendour of colourful flowers** on the balcony and in the living room. The lightness of the flower is rooted in the nutrient soil.

- > soilless
- > low weight
- > simple modular principle of pre-planted cubes
- > less watering required thanks to water reservoir
- > rich in nutrients
- > good root penetration
- > positive influence on the CO₂ balance

VIRIdiVITA flower is the high-tech soil replacement product for the easy planting of flowers on your balcony and within your home.

Thanks to its lightweight, lugging soil is a thing of the past.

The perfect nutrient medium for your flowers.

"With VIRIdiVITA flower, I enjoy a magnificent sea of flowers every day, and all without having to carry heavy bags of soil up to the fifth floor."
