

UNDER CONSTRUCTION!

Vivid in form and color, VIRIdiVITA vert in keeps your room **climate** in the **optimized** range.

Living art that will keep you relaxed and will warm your soul.

The **green wall** without soil.

- > good for one's health through improvement of the indoor climate
- > noise-absorbing
- > oxygenating and air-purifying
- > living
- > refreshing
- > without soil substrate
- > sustainable

VIRIdiVITA vert in is a visually unique feature. It is a high-tech product for improving the indoor climate.

Because of its easy installation and the self-contained design, it contributes to one's well-being.

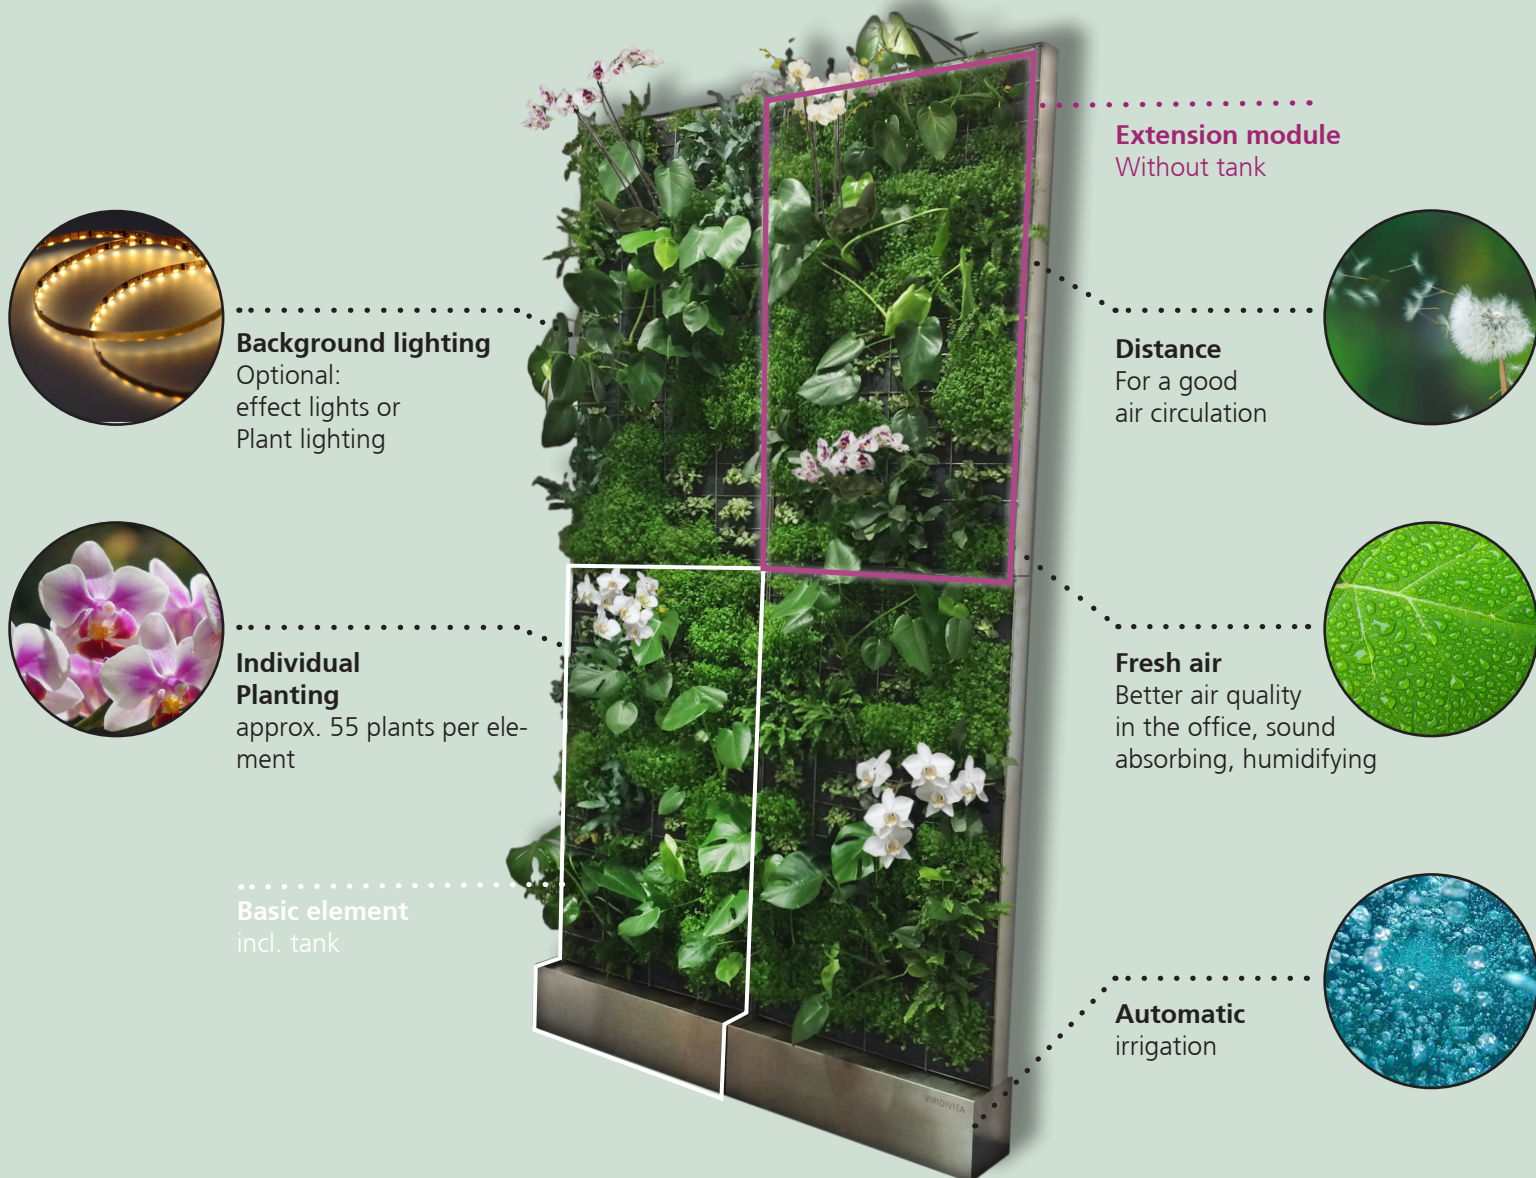

Your customers, friends and employees will thank you for it.

"Like a walk in the cool forest. Only singing of the birds is missing. Is there a more beautiful reception?"

Guido Schmitt Head of Business Development
& Market Intelligence (FoamPartner)
